1. Nature and Purpose of the Terms and Conditions and Student Guide (the 'Guide')

This Guide constitutes both the information document required under Annex 2 to Hungarian GKM Decree 24/2005 (IV. 21.) on the training and examination of road vehicle drivers and road transport professionals, and the General Terms and Conditions (GTC).

The Guide establishes uniform terms for agreements between the Driving School and students covered by it, and sets out their cooperation obligations. These terms form part of the agreement between the parties and may be varied only by a written agreement expressing the mutual consent of both parties.

2. Subject Matter, Personal and Territorial Scope of the Guide

The Guide applies to the training activities provided by the Driving School, namely road vehicle driver training courses.

The parties subject to the Guide are the Driving School and the student.

Its territorial scope covers all areas of Hungary in which the Driving School provides training.

3. Duration and Amendments of the Guide

This Guide applies from the start date of the training until withdrawn, including any amendments taking effect in the meantime.

The Driving School is entitled to amend the content of this Prospectus. Amendments shall enter into force on the date of their publication.

The current version of the Prospectus shall be continuously made available on the Driving School’s official website and at the customer service office.

The participant is entitled to request information on the currently effective content of the Prospectus at any time and is obliged to familiarize themselves with and comply with its provisions throughout the duration of the training.

With regard to fees and charges, the always currently effective fee schedule shall apply, in accordance with the relevant provisions of this Prospectus.

Amendments to the Prospectus shall not affect services already paid for and duly credited to the participant.

Withdrawal, Termination and Settlement for Services Already Provided

The Driving School orders the e-Titán e-learning course materials for the student subject to a payment obligation. Once access to the materials has been provided and the course has begun, the student is not automatically entitled to a refund of the course fee solely on the grounds of voluntarily discontinuing the training or not using the materials. If the contract is terminated, the parties shall settle the fees for services already provided in accordance with applicable law.

6. How to Enroll and Conditions of Enrollment

6.1. To enroll, the student may contact the Driving School in the following ways:

- by visiting the Driving School office in person;
- by telephone;
- by email; or
- by completing the 'Apply Now' form on the Website.

Students may enroll in Category B training in person or online after reviewing the Terms and Conditions and Privacy Policy and providing the required documents, including the completed and signed Adult Education Contract. The original, signed paper application form generated by the e-Titán system must subsequently be delivered to the Driving School office, or the student must visit the office to sign a form printed by the Driving School. Required documents may be submitted electronically in advance. Later in-person signing or delivery of the original e-Titán application form does not prevent the student from starting the e-learning theory course earlier, provided the Driving School has checked the preliminary documents and payment and activated access. The obligation to submit or sign the original form remains. If the student cannot produce an electronic application through Ügyfélkapu/DÁP, they must submit the signed Adult Education Contract together with legible photographs or scans of both sides of their identity card and address card for preliminary verification. Properly submitted documents will not be requested again. The original e-Titán application must still be signed or submitted at the office.

6.2. A PÁV aptitude examination is not required.

6.3. Enrollment Requirements:

- at least 16 years and 6 months of age;
- payment of the first installment of the course fee;
- a duly completed and signed application form.
- A Hungarian residence permit valid for at least six months, or a valid Hungarian address card.

6.4. Deadline for Starting the Course

- Within 90 calendar days after receiving the registration link sent by email from the e-Titán system following enrollment, the student must complete the registration and start the course.
- If registration is not completed and the course is not started within this period, the registration opportunity expires automatically and the course cannot be started using the original link.
- If the 90-day registration period is missed, the Driving School will not reactivate the previously purchased e-learning access free of charge, and a new registration and course fee may be necessary. Any fee settlement remains subject to mandatory consumer protection laws and any rights arising under them cannot be excluded.
- To continue the training, the student must initiate a new course registration and pay the applicable fees again.
- The learning material access period begins only after registration has been completed and the course started.

7. Conditions for Admission to Examinations

7.1. Requirements for the Theory Examination

- at least 16 years and 9 months of age;
- completion of the theory course;
- less than nine months since starting the theory course;
- payment of the theory exam fee;
- a duly completed and signed application form;
- ability to read and write;
- declaration of completion of primary education; and
- a valid medical fitness certificate.

The student must take the first theory exam within nine months of starting the course. In the event of failure, a retake is permitted, but the theory examination must be passed within twelve months of the course start date. After these deadlines, examination registration is possible only after repeating the theory course. The student must request an exam appointment at least 20 working days before the deadline so that the Driving School has time to arrange it.

A passed KRESZ theory examination remains valid for two years. If the student does not pass all required examinations in this period, the passed examinations and completed course lose their validity.

The Driving School may charge an examination administration fee to cover the internal costs of exam scheduling, coordination and related paperwork.

7.2. Requirements for the Practical Driving Examination

- at least 17 years of age;
- completion of the mandatory 29 driving hours plus one exam hour, and the required distance of 580 km;
- a properly completed and signed application form; and
- payment of the practical examination fee.

7.3. Conditions for the Examination Certificate

- proof of passing the theory examination;
- proof of passing the practical examination;
- Passing the Hungarian Red Cross first-aid examination, or a documented statutory exemption, is a condition for the first issuance of the driving licence. It is not a prerequisite for the KRESZ theory or practical examination. The student may take the first-aid examination after passing the practical examination.
- Primary school education must be evidenced by one of the following:
    - a doctoral title obtained in the applicant's own right and recorded in their identification documents;
    - the original document proving the qualification, or a copy certified by a notary or the issuing institution. For foreign certificates and diplomas, the original and a certified translation must be presented unless the document's form and content appear in the Transport Authority's reference collection of certificate and diploma specimens.
    - for foreign certificates and diplomas, a decision recognising the qualification, a recognition endorsement, an official certificate, confirmation or information issued by a competent Hungarian authority, or a student status certificate issued within the preceding three months by a Hungarian higher education institution, confirming that the qualification is at least equivalent to primary education or presupposes it.

8. Course Subjects, Mandatory Lessons and Required Driving Distance

8.1. Theory Subjects and Lesson Hours

- Traffic rules and road knowledge: 18 lessons
- Driving theory: 6 lessons
- Vehicle construction and operation: 4 lessons

A theory lesson lasts 45 minutes. A theory teaching session consists of four 45-minute lessons.

For e-learning, theory instruction is based on EduKresz materials provided through e-Tián.

8.2. Practical Lessons, Required Hours and Distance

- Mandatory driving distance: 580 km
- Mandatory practical training: 29 lessons plus one exam lesson, consisting of:
    - Basic training: 9 lessons
    - On-road training: 20 lessons, broken down as follows:
    - Urban driving: 14 lessons
    - Rural roads: 4 lessons
    - Night driving: 2 lessons
    - Examination: 1 lesson

Practical driving lessons may begin after passing the theory examination. Lesson times are arranged with the instructor.

Each practical lesson lasts 50 minutes. Basic training permits a maximum of two lessons per day. On-road training permits a maximum of two blocks of two lessons per day, with a break of at least two hours between the blocks.

After completing the mandatory 29+1 practical lessons and covering 580 km, and also following a failed practical exam, the instructor may recommend additional driving lessons.

The practical examination lasts 60 minutes, including 50 minutes of continuous driving. This period also covers the examiner's briefing and assessment.

After five failed practical driving examinations, a PÁV aptitude examination is required.

8.3. Accelerated Practical Training

The Driving School offers accelerated practical training to arrange driving lessons more frequently than under the standard schedule.

The planned four to five driving sessions per week are not guaranteed. This is a target dependent on instructor availability, examination appointment availability, and the student's own schedule.

Accelerated training requires the student to be flexible about scheduling and to accommodate the times offered by the instructor.

The student acknowledges that choosing accelerated training does not, by itself, give rise to compensation, a contractual penalty, fee reduction or other claims against the Driving School if the scheduling target cannot be achieved in a particular period.

9. Absences

9.1. Instructor Delays and Absences

If an instructor is late for practical training, the student must wait for at least 20 minutes. Lessons cancelled due to the instructor must be made up later at no additional fee.

9.2. Student Absences

If the student cannot attend an agreed driving lesson, the following cancellation rules apply:

- cancellation at least 48 hours before the scheduled start: no fee is payable;
- cancellation less than 48 hours before the scheduled start: the prevailing lesson fee is payable;
- failure to attend without prior notice: the prevailing lesson fee is payable and the missed practical lesson must be made up.

12. Conditions for Exemptions from Subjects and Examinations

The Driving School determines exemption requirements in accordance with the GKM Decree as follows.

12.1. Exemption from Attending Subjects

The head of the Driving School decides whether a student may be exempted from attending particular subjects.

- Before a course begins, the head of the Driving School may exempt a student who already holds a qualification relevant to that subject.

Qualifying certificates and educational achievements allowing exemption from certain theory subjects or first-aid knowledge are determined by the Transport Authority. The applicable list appears in point 4 of Annex 3 to the GKM Decree.

12.2. Exemption from Examination Requirements

To request examination exemption, a copy of the supporting qualification document, certified by the head of the Driving School, must be attached to the application form. The Transport Authority decides on the exemption upon request.

13. Transfers to Another Driving School and Training Certificates

At the student's request, the head of the Driving School must issue a Training Certificate showing completed instruction and deliver it on paper or electronically within three working days. - The examinee must verify their identity with a valid national ID card, address card or another valid identification document, such as a passport.
- The official examination result appears in the examination report and is acknowledged by the examinee's signature.
- A KAV examination appointment may be cancelled by the examinee or the training provider in person or in writing according to KAV procedure no later than the eighth calendar day before the examination without the examination fee being finally deducted. Late cancellation, unjustified non-attendance or failure generally incurs a new examination fee. If the examinee is prevented from attending through no fault of their own, a written justification request may be lodged with KAV by post or in person within eight calendar days of the examination or the end of the impediment. A new appointment without an additional fee is possible only if KAV approves the request. Advance cancellation and subsequent justification are separate procedures. Non-Hungarian citizens must have a residence permit valid for six months or a registered permanent address. A Category B driving licence entitles its holder to drive only in Hungary until they reach 18 years of age.

For the first two years after the practical driving entitlement is acquired, the driving licence is classified as a novice licence.

19. Miscellaneous Provisions

This section applies to every part of the Guide and its annexes. Matters not covered by the Guide are governed by applicable Hungarian law.
The student acknowledges the Driving School's right to amend its fee schedule unilaterally. Tuition, practical lesson fees and all other fees are determined according to the price list in force when the relevant service is ordered, becomes due or is provided, irrespective of the fees in force when the student first enrolled.
The student acknowledges that a lawfully communicated fee change may apply to services not yet paid for or supplied, in accordance with the applicable contractual terms. This does not restrict statutory consumer rights or remedies. Fees already paid and demonstrably credited for lessons shall not be changed retrospectively.
Fees for practical driving lessons already paid for and demonstrably credited to the student shall not be changed retrospectively.
Prices in the appendices are provided for information. The actual fees are those in the Driving School's fee schedule in effect when the service is ordered or supplied.
The Driving School supplies a copy of this Guide to applicants when they enroll, displays it in a visible place at the customer service office, and publishes and updates it on its Website.
